Re: ASA membership note:

Membership Cancellation Notice

We have chosen not to renew our ASA membership. Recent changes to the wording on their certificate now state that it does not represent any form of endorsement or validation of a company's quality system. As a CAA-approved organisation, our regulatory compliance is already independently verified to a far higher standard, and the ASA certificate no longer provides meaningful value or clarity for our customers.

For this reason, we have discontinued our membership.

Jerry French
